TWO MORE BRICK BLOCKS

Contract Let for the Bank of Glendale's New Block—Work will Begin on Filger Block Soon.

The contract for the erection of the new two-story building by the Bank of Glendale, was let Thursday last to Mr. J. P. Shropshire; contract price, \$9150.00, building to be completed in May. The figures of three competing contractors for this job varied only \$52 between the highest and lowest bidders.

This building, the plans for which have been drawn by Mr. Paul R. Tuttle, will be a structure becoming to the prominent corner which it will occupy on the southeast corner of Fourth and Glendale avenue.

The dimensions will be 68 feet on Fourth street and 36½ feet on Glendale avenue, while at the rear the depth will be 53 feet. The fronts will be of pressed brick and plate glass. There will be one store room on Glendale avenue, the bank occupying the main portion of the building on the ground floor, with a corner entrance and a large projecting doorway. In the rear on Fourth street there will also be one store room. On the upper floor there will be two complete suites of rooms for housekeeping with every modern convenience, bath rooms, closets, lights, etc., in the rear, while the front will afford five office rooms.

We have seen the plans prepared by Mr. R. N. Lamberth for the Filger block to be erected on Fourth street near Glendale avenue, and an examination of them confirms the idea that when completed this structure will be of such a character as to render it a valuable addition to any city. It will be a two-story brick building, the brick to be of the glazed variety used in the Central building on Main street, opposite the Pacific Electric depot, Los Angeles.

The three store rooms on the first floor will have plate fronts. The hallway entrance will be commodious and ornamental. The upper floor will have five or six office rooms in front, all furnished with glass doors and every convenience in up-to-date fixtures. Back of the wide hall upon which these rooms open will be what may well be termed Glendale's first Opera House; consisting of an auditorium with a seating capacity of five hundred people, a large, well-equipped stage with dressing rooms on both sides, closets, etc., the whole covered by a dome admitting the light. The contract for the erection of this building will be let in a short time. The cost is approximated at \$10,000.

TUESDAY AFTERNOON CLUB.

January 12, 1909.

The program on Tuesday at the club rooms was one of profit and pleasure and the clouded skies without were forgotten in the cheery good-fellowship that reigned within.

Mrs. Thatcher opened the program with an address upon the life and works of the author, Edgar Allen Poe. Her free and happy manner of delivery, together with the breezy style of her paper, won hearty favor and applause. Following Mrs. Thatcher, was Miss Cora Hickman. Her subject was also in keeping with the subject, "The Poe Centennial," and was equally enjoyed.

Miss Geisler, violinist, of New York, accompanied by Miss Augspurger, pianist, delighted her audience by several selections and kindly responded to encores.

Referred to city engineer.

Ordinance No. 91, declaring intention of widening Adams street from the south line of First street to the southerly city boundary line to uniform width of sixty feet, was adopted. A resolution designating the variety of shade tree to be planted on Louise street between Second and Third streets, was adopted. The street superintendent was authorized to grant permits at his discretion to plant shade trees on streets where an official tree had not been designated.

The city engineer was instructed to prepare deeds conveying to the city land on Fourth street for street purposes from Verdugo road to Eagle Rock road. Trustee Blackburn of committee on municipal affairs, plant read an estimate of cost of such a plant prepared by the Lacy Engineering company. The report of the committee was received and the estimates referred to the committee of the whole. On motion the chairman appointed a special committee to act in conjunction with the city engineer in regard to opening of Sixth street from Adams street to Verdugo road. Messrs. Blackburn and Grant appointed. On motion it was ordered that settlement be made with city tax collector in accordance with his supplemental report. On motion the action of the board two weeks ago in regard to pool rooms (by which license of L. C. Wardell was revoked) was reconsidered by unanimous vote. By unanimous vote the city attorney was instructed to amend the license ordinance so as to prohibit pool rooms after July 1st next.

On motion the clerk was instructed to issue a monthly license to conduct a pool room to L. C. Wardell.

SOME NEEDED IMPROVEMENTS.

We are glad to note that the trustees have decided to take action toward the widening of Adams street, at the corner of Third. This fine thoroughfare, extending the entire length of the city, should no longer be blocked by this projecting twenty-feet. Another much needed improvement which the city engineer is now working on, is the straightening of Sixth street from Verdugo road westward, where it is blocked by the property of Messrs. Kober and Tarr. We hope that these owners and the city will soon come to terms in regard to the price for the land required to straighten this street. The opening of Eighth street between Glendale avenue and Adams street is contemplated and we hope will soon be accomplished.

Work has begun on the grading of Orange street between Fourth and Sixth streets, which will be a valuable addition in the way of improvement to that portion of the city.

W. C. T. U.

The attendance at the "Hygiene Food Class" last Friday was good, the subscribers to a full course of lessons make quite a good class, but we expect quite a number more to join. They are promised instruction in the preparation of palatable and inexpensive foods without the use of deleterious substances. Mrs. Fitch has had several years' experience as a writer and instructor. The simplicity of her teaching commends the principles of hygiene not only to the common people but to all others.

Mrs. Bertram Moore, Mrs. Arthur Salisbury and small son, Markham, of Highland Park, Mrs. M. Salisbury and daughter, Miss Mary, of Rome, N. Y., and Mrs. Searles of Rochester, N. Y., were all-day guests of Mrs. Mary Colburn at the "Bungle-O," Cedar street, on Wednesday. 2:30 p. m., next Monday. In the evening there will be a meeting at the church, to which the general public is invited, at 7:30.

Dr. Underwood is not only a speaker of remarkable force and ability, but is a man of broad and powerful personality. For twenty-four years he has been connected with the Korea Mission and has been a considerable factor in the great events that have brought the Hermit Kingdom into the line of modern civilization.

No one who has an intelligent interest in the progress of the world can afford to miss this chance to hear this modern empire builder.

Do not think that, because there is no charge for admission, this is not worth your attention.

I wish to state for the benefit of any who have been misled by the stories circulated by a certain woman in regard to my parents, whose memory I naturally cherish, that my father was of Pennsylvania Dutch stock with a mixture of Welch blood and my mother was English and Scotch. Any story being told by this woman to the detriment of my parents or of my family is absolutely untrue and her motive in doing it is a foolish idea of elevating herself in the opinion of the community.

WEDDING BELLS.

DARLINGTON-MONROE.

In the charming home of Mr. and Mrs. Lewis A. Monroe, at high noon on Tuesday, January 12th, Miss Clara A. Monroe became the bride of Newell D. Darlington, both of Los Angeles. Reverend Pierce, pastor of the bride, officiated, reading a beautiful ring service, during which the company, composed of Los Angeles guests and relatives, reverently stood. The bride was gowned in white lace and pointed de esprit, built en princesse.

The bridal party stood before the low French doors, which were banked with pepper boughs and massed with flowers of many varieties. The bright, casting a red glow, made the picture perfect.

About the rooms were disposed in dainty profusion the Marguerites and the grace of the trailing peppers enhanced their beauty.

Following immediately after congratulations the wedding breakfast was served. The centerpiece was a bank of violets and fern, and the same flowers were scattered in lovely abandon over the damask. Sixteen of the guests were Los Angeles relatives and close friends. Later the young couple left in an auto for Los Angeles, where they took the train north, presumably for Santa Barbara, for an absence of about ten days. Upon their return they will be at home in Westlake vicinity, Los Angeles.

The gifts were many and beautiful, such as gladden the hearts always of happy home-makers, among them being a chest of silver.

GOSS-BLAISDELL.

A P. E. O. romance culminated Tuesday at high noon in the marriage of Miss Charlotte Blaisdell, niece of Mr. and Mrs. Edward Fuller, of North Glendale, and Mr. William Goss, at the home of the latter's parents, Mr. and Mrs. R. D. Goss, Fifth street. Rev. C. R. Norton of Cucamonga, read the Methodist Episcopal ring service, the nearest relatives forming the bridal party. Out of town guests were Judge Charles Austin of Seattle and wife; Mr. and Mrs. Howard Goss of Windham, Minn.; Miss Henry, spending the winter in Los Angeles; and Mrs. C. R. Norton. It was eminently fitting that for this wedding the fairy grace of the marguerite was everywhere in evidence. Flimsy lace draperies formed the wedding bower, mingled with delicate blossoms and dainty sprays of smilax. The background was a beautiful mass of the marguerite, and the wedding-bell above was of the same flower. On either side were banked long-stemmed calla lilies. The floor was strewn thick with blossoms. About the rooms and in the archway smilax was entwined. Quaint bowls of the snowy flowers were lovely in the soft light, daylight have been excluded.

The bride's gown was of sheer French embroidered batiste, built en princesse. She wore orange blossoms and carried violets. Never has her beloved chapter L given a sweeter or a daintier bride, and a sweeter story never was told than that of the young couple united in marriage there among the blossoms whose message they knew. Following blessings and congratulations and the elaborate wedding collation, the happy couple terminated

the pretty affair by their departure for the North.

The bride's going away gown was of blue chiffon broadcloth and hat en suite.

As they left for Burbank to catch the train, many were the speculations as to their destination. They were given a royal P. E. O. send-off and upon their return will be at home in their handsome new bungalow on Fifth street. The beauty and number of costly gifts more than attested love and appreciation of the happy couple.

FOURTH STREET GRAMMAR SCHOOL.

The boys of the seventh and eighth grades of the Fourth street school who are interested in athletics, have perfected the organization of an athletic club with Charles Shropshire president, Leg Goode, treasurer, and Charleston Dow manager.

They had arranged with Wm. H. Wright of Los Angeles to give a dramatic, comedy-classic entertainment for the benefit of their athletic fund at I. O. O. F. hall last Wednesday evening, but owing to the inclement weather the entertainment was postponed until Tuesday evening, January 19, I. O. O. F. hall.

The boys are anxious for a full house and hope that all who are interested in boys and their sports will aid them by the purchase of tickets.

An orchestra has been organized composed of the following under the direction of Mrs. Anderson, special music teacher:

Violin, Julius Kranz; clarinet, Wilmo McIntyre; cornet, Charles Shropshire; cello, John Maddy; pianist, Herbert Henning.

ATTACKED BY APOPLEXY—SERIOUS ILLNESS OF MR. A. K. CRAWFORD.

While at service in G. A. R. hall, last Sunday morning, Mr. A. K. Crawford, of Cedar street, was overcome by an attack of apoplexy and his condition since has been very serious although a slight improvement is noticeable in his condition and there seems at present to be a prospect that he will get around again in a fortnight or so. Mr. Crawford is a member of an important committee of the Grand Jury which has been sitting in Los Angeles for the past six months, and his companions on the jury have been very solicitous in regard to his condition since his attack as he is held in high regard by all with whom he has been associated.

MRS. TEMPLE ENTERTAINS.

Mrs. Charles Temple was hostess on Thursday at a very pretty affair in her home on Orange avenue. The "Scotch mist" did very little to deplete the list of those invited and an excellent time was enjoyed. The handsome rooms were bright with fragrant blossoms and cheer and hospitality made the happy afternoon one long to be remembered. No one cared that the "sunshine" was "mist" while guests of this charming hostess.

INTERESTING SERVICES.

At the Baptist church Sunday the pastor will preach at both morning and evening service. Subject for the morning service to be "The church and the children." For evening, special topic, evangelistic with chorus choir. Baptism service in connection with evening service. All who are not in regular attendance at some other church are given a very cordial invitation to worship with us.

J. F. MOODY, Pastor.

BASKET AUCTION.

The new directors of the Glendale Country club have devised a unique means for the better acquaintance of members, and on Saturday night will give as a regular jollification an old-fashioned basket lunch auction, and good fun (and good lunches) are promised.

Baskets will go for fifty cents and up to make things lively and busy. Auxiliary members have already planned very delectable menus for the affair.

THE NEW RAILROAD.

The contract for grading the bed of the new road from Eagle Rock along Third street into Glendale was let this week to Brashear and Company and will be completed within a few days, weather and so forth permitting. Most of the poles have been delivered, many distributed and some set. We are pleased to learn that the property owners along the eastern portion of Third street have agreed to have the road along the railroad track graded and put into first-class shape as soon as the railroad is completed.

FREE DELIVERY FOR GLENDALE

To be Established February 1st—Applies to City of Glendale Only

Assistant Postmaster Harrison and Inspector Hall of Los Angeles, visited Glendale Monday last and made arrangements in regard to the free delivery of mail matter which is to be established here on February first. The postoffice will be discontinued on that date and Glendale, as far as mail service is concerned will be a branch of Los Angeles. Postmaster Fancett will be succeeded by a distributing agent who will be under civil service rules. We have been unable to gather many details, but understand that there will be delivery by mounted carriers and it is probable that the rural free delivery service as far as it is within Glendale city limits will be done away with.

Postmaster Fancett informs us that the total receipts of the office for the year just ended amount to \$4039.00 as against \$3812 the preceding year. The last quarter shows an increase from \$1089.34 to \$1268.29 over the same period last year.

GLENDALE HIGH SCHOOL.

A regular league basket ball game will be played on the High School court this afternoon when the Glendale girls will line up against the girls' team of the El Monte High school. This will be the second game our girls have played this year, the first one going to the San Pedro High School, several weeks ago, so it is up to the people of this place to come out and help cheer the home team to victory. The line-up of the home team will be as follows: Misses Pearl Goode, Emily Ellis, Alma Stone, Bertha Hopkins, Ruth Farrell, Louis Graham and Ellis Tipton.

An interesting game of basket ball took place last Monday afternoon on the High School court. The odd-numbered classes of the school played against the even, and so closely were the thirty minutes of play, the score stood 7 to 7. The game was continued and the Freshman-Junior team won, having secured the necessary two points first. While not an exhibition of skill, the contest was spirited throughout. This is the first of a series of inter-class matches.

CHAPTER L CONVENES.

Miss Francis Henderson opened her home on Monday evening for a session for Chapter L. P. E. O. In spite of inclemency of the weather there was a splendid meeting, the various phases of "New Year's Resolutions" were discussed at the close of the regular business. The rooms were very pretty in red Christmas bells, holly-red garlands forming a canopy hung with tiny bells. Rare Indian baskets, rare cactus and begonias afforded pleasurable discussion. A special meeting for Chapter L was called to meet at the home of Mrs. Ray Chase, Fourth street, on Friday afternoon, to discuss interesting plans which are to be put to immediate use.

CONCERT.

The Three Link lodge of Glendale gives a grand concert Saturday evening, Jan 23d, next, at Odd Fellows hall. The "Metropolitan Entertainers," consisting of a half dozen lady musicians, will furnish the program, which will consist of solos, duets and quartettes, and numbers by a fine orchestra. The remarkable feature of this company is that every member not only is a finished performer on some musical instrument, but is a vocal soloist as well. Admission 50 cents; children 25 cents.

GLENDAL, CAL., JANUARY 16, 1909.

TO SUBSCRIBERS.

Acting upon the same principle which actuates a tenant to move rather than pay rent, two or three of our subscribers upon receipt of a bill from this office, have ordered their paper stopped, after taking it out of the postoffice for a year or more; without the formality of remitting the amount due. In order to prevent misunderstandings in regard to this matter, permit us to say that there is no law that we know of, compelling any one to take this paper. There is however a federal law requiring the person who takes a paper from the postoffice for any considerable time, to pay the subscription price for it. When we get a sufficient number of cases to warrant it we may have a little pastime by invoking the operation of said law.

Meanwhile we will say that we do not desire to thrust this publication upon any one, but insist that those who are receiving it shall pay the subscription price. If you do not want the paper, pay up and stop it.

To the long and growing list of friends and supporters of this publication, we extend our sincere thanks and shall endeavor to add constantly to the value which they receive for their money.

THE GLENDALE NEWS.

Pitchfork Tillman seems to have got hold of the wrong end of his weapon.

Jupiter Pluvius has been behaving quite handsomely toward this portion of the earth recently. Hope he won't interfere with the tourist season by bringing down the price of hay.

From more than one quarter recently we have heard that things are going to move in this section before the blooming of flowers of spring. "All things come to him who waits, and some of us have been pretty good waiters!"

A stupid postoffice employe in Los Angeles returned to Glendale on Monday last, the budget of the NEWS that we mailed to Los Angeles and the East on Saturday.

Subscribers who failed to get their papers on time will please render judgment accordingly.

\$300,000 GOES A-BEGGING.

San Francisco has a problem on its hands in regard to the sum of \$300,000 remaining in the possession of the relief committee having charge of the fund contributed immediately after the great earthquake in that city, for the benefit of its victims. After ministering to all the apparent necessities of the unfortunates who suffered from that great disaster, the committee still has this large sum in its possession. Various suggestions have been made as to its disposal, but none of them meet with favor on the part of the committee, the members of which are naturally not averse to retaining control of the money. The very sensible suggestion is made by the Argonaut, that it be given to the victims of the Italian earthquake, but this meets with no more favor than did all previous suggestions, and the \$300,000 still wastes its possibilities for usefulness in the vaults of the bank in which it is deposited. This money should be put into circulation; the world needs it and if the present board is incompetent to spend it, we suggest that its members resign and that a special committee consisting of Mr. Eugene Schmitz and Mr. Abraham Rueff, be given charge of the fund. In the possession of these philanthropic free spenders, we feel assured that the problem would be easily solved.

AT SACRAMENTO.

The personnel of the senate committee on morals appointed by Lieut. Gov. Porter, indicates that the work of that committee will be a farce as usual. The senate does not have a committee on morals for the purpose of doing anything that is strictly along moral lines. The members of the committee consist of Messrs. Weed, Leavitt, Savage, Wolf and Kennedy. Messrs. Weed and Kennedy, we know nothing about, but the other

three have records indicating that they are anything but reformers. If a really moral bill comes their way, they will put the uncanny thing out of their sight as quickly as possible. Race track reform bills, will go to this committee, and the putting of Senator Leavitt upon this committee to pass upon his own race track interests, is little short of indecent. While hoping that the senate is composed of better stuff, this session than in times past, we may be excused for entertaining serious doubts in regard to it. It is a fair prophecy that this reform measure will end just where its predecessors have had a period put to their brief existence—in the senate chamber.

The message of Gov. Gillette is a surprisingly good one; surprising because the governor was nominated by the influence of the Southern Pacific Railroad company and has never shown any symptoms of ingratitude since he became governor. We shall not become enthusiastic over that portion of his message relating to railroads until he gives us something upon which to base a belief in his sincerity. The railroad powers that be are in the habit of allowing their official instruments considerable latitude in the expression of virtuous sentiments at times; even permitting abuse of the railroads themselves as it is limited to language only.

THE TRIUMPHS OF SCIENCE.

The wonderful triumphs of science which made the latter half of the nineteenth century the most phenomenal period in the history of mankind as far as material achievements are concerned, seem quite likely to be eclipsed by the fifty years beginning with the twentieth century. Improvements along the line of mechanics are being made so rapidly that the user of a modern piece of machinery may well pause before investing a large sum of money in it, for fear that in a year or two it will be out of date and superseded by something much superior. For many years a few enthusiasts experimented with flying machines with a long record of failures which seemed to the ordinary mortal to indicate clearly that man would never navigate the air; and then one morning the world woke up to learn that Zeppelin had sailed triumphantly over the blue waters of Lake Lucern and that man had harnessed another element to his car of progress and become the master of earth, sea and air! Wireless telegraphy is today a common thing, and a man can communicate with instruments by which communication is maintained between land and sea through intervening miles of space. By an application of the same principle wireless telephony will soon become an established fact and its limitations promise sometime to be comparatively boundless. The network of wires that span the world and have linked together practically in one circuit every place of importance on the globe, will give place in the near future to the system which utilizes instead of the metallic conductors, the impalpable and invisible waves of ether. The "Morse" system of telegraphy which has worked such wizardry in time past, is rapidly passing away and thousands of skillful interpreters of the dot and dash, will soon find their occupation gone, for by the application of a combination of magnets to ordinary typewriters, the two instruments at the ends of the line, hundreds of miles apart, work synchronously, and record similar characters. Messages will thus be transmitted by any typewriter operator without special skill or training. Not only this, but the same attachment in connection with a tinctotype machine in a distant city may cast the type for the printed word. The phonograph, Edison's most wonderful invention, is becoming adapted more and more every day to practical uses. Indeed, if a citizen of today should repeat the experience of Rip Van Winkle for only half of the score of years he slept, he would awake into a world crowded full of greater changes than met the eyes of the lovable vagrant of the Catskills! In view of the success of men in harnessing the unseen forces of nature for his uses, the moralist may easily find a text for speculation as to the outcome of it all. Will the triumph of the human mind become so potent in the world, that mankind will develop a tendency to accord to mere human workers the qualities of omnipotence? Will the wonderful achievements of the present have a tendency to develop the spiritual nature of the race, or to pull us down to materialism?

If the latter should be the result, if it comes to pass that we by degrees grow away from the natural tendency of man to look beyond the triumphs of the intellect, the achievements of genius, to the highest source of knowledge and power; to the Divine Creator of it all—history will repeat itself and the latest civilization will go down to that dust beneath which lie the ruins of all the others, that have perished from the earth!

AT SACRAMENTO.

Proceedings During the Past Week.

A contest occurred in the Assembly over the adoption of rules, which was practically the first line-up of organization and anti-organization members, that has occurred. And the anti's won. The committee on rules had reported in favor of several changes in the rules which have been in use for the last three or four sessions. One of these was a rule permitting committees to which bills may be referred, "to report them back as soon as practicable," instead of being required to report back in ten days, as heretofore. Another proposed change was to prevent debate on a motion to take a bill from committee, while a third change would have the effect of requiring a two-thirds vote of all members of the house, instead of all members present, when a rule was to be taken on a temporary rule. Drew, of Fresno, (a Lincoln-Roosevelter) led the anti's, who won out by a vote of 41 to 32. Whether this vote indicates anything resembling a permanent line-up of the opposing forces in the lower house, remains to be seen. We notice that Representatives Cottell and Cogswell, in whose independence and honesty we have confidence, voted with the anti's. Drew has served in the Assembly several sessions, stands well as a lawyer, is able and fearless. We expect to see him act the part of leader for the reform forces in the Assembly. Treasner and Beardslee led the organization forces; they can always be depended upon for that also. A list of 98 attaches was reported to the house and they were sworn in by Speaker Stanton, who gave them a straight talk as to their duties, assuring them that whenever they failed to perform their full duty, they would be bounced. Stanton is a worker himself and if he undertakes to make those employes earn their salary he will come pretty near doing it. The aggregate daily pay of these attaches is \$420.00; a falling off to fifty per cent. of the amount in previous sessions, necessitated by the law adopted at the last election.

In the senate, the action of Lieut. Gov. Porter in appointing a committee on morals, which is so evidently chosen to oppose race track legislation, caused a considerable sensation of surprise. Porter was put in his position by railroad influence, as everybody knows, but it was hardly thought that he would appoint so rank a committee to receive the anti-race track bills. Leavitt of Alameda, with a heavy interest in the Empire race track, although not the chairman, is a member of the committee and will easily dominate it, as there is not a single man among the five members of whom any reform action can be expected. It is quite possible, however, that Leavitt may make no opposition to the bill in committee, being willing to have it fought out on the floor of the senate. It is hinted in some quarters also that the race track people may not put up much of a fight, but scheme to get the reform bill passed in such shape that it will be declared unconstitutional by the courts. But it is more likely to be a strenuous fight and statesmen of bargain counter caliber look forward to doing a good stroke of business when the fabled "Col. Mazuma" comes to town. Even the doughty but considerably discredited Dan Burns has been resurrected and it is said he will take charge of the race men's campaign. In the Assembly the committee on morals is headed by W. H. Griffith, of Napa, and every member is on record as against the race track. But it is a foregone conclusion that the race track people will put up no fight in the Assembly which is likely to pass any anti-race track measure by a practically unanimous vote.

The senate will be the fighting ground now as heretofore. Bills have begun to flow into the hopper in quantities; over 200 have been received in the Assembly, of all sorts, covering nearly everything thinkable, from the regulation of railroad fares to the regulation of the state capitol clock. Grove Johnson has some anti-Japanese measures, the mere reading of which has caused a ripple of excitement among the little brown men across the Pacific.

Returning to committee appointments, we note that Thompson of Alameda is senate chairman of county government committee, while Cogswell of El Monte heads the Assembly committee on agriculture. Both are good men and especially qualified for their respective positions. Senator McCartney (who is a deputy in District Attorney Fredericks office in Los Angeles, by the way) is now known as "Mother-in-law" McCartney, simply because he secured the appointment of his mother-in-law to a porter's position at three dollars a day. The old lady did not appear when her name was called and there was a mild sensation when the discovery was made that the porter was the senator's mother-in-law.

On Tuesday both houses in joint assembly by their official action gave us six more years of Perkins as senator.

BUILD FOR AN IDEAL CITY.

Editor Glendale News:

To those property holders who are interested in the best and most beautiful development of our city the subject of broad boulevards possesses more than ordinary interest, inasmuch as it is a matter which must receive attention and consummation before street paving is begun. Already the majority of the streets are paved the width laid out for Glendale village a quarter century ago, but there still remain a number unpaved, regarding several of which some interest has been manifest by property holders abutting on them. I note in your columns the offer of several parties on Central avenue willing to contribute land towards the proposition. Between Third and Fourth streets on the line of the new car line Mr. Wells will contribute generously, and I understand that Eugene Frank, the artist, who has recently purchased a splendid home site at that point, has signified his approval of the plan, while, no doubt, Dr. Hurtt and all public-spirited property holders all along the railway line will appreciate the desirability of broadening the street, which, if left narrow as it now is, will give to tourists a wrong and undesirable impression of Glendale. That street is now, I am told, one hundred and twenty feet wide from the Eagle Rock bank to Mr. Benson's corner just east of the Glendale boundary. Surely Glendale can not afford to have this street contracted to a fifty-foot alley, as it would appear compared with Eagle Rock's one hundred and twenty feet. Rather let it be broadened through Glendale to one hundred and fifty or two hundred feet, which is none too wide for a handsome residence boulevard when part must be given up to railway tracks. There is no physical impediment to this as far west as the paving is completed on Third street. At any rate it could be broadened to the intersection of Verdugo road, which of all the streets which have been mentioned is really the most picturesque and ideal for a broad parked boulevard.

The city authorities are at present working to straighten and widen Sixth street, which is the one that has been chosen through our city as a part of that splendid broad roadway from Redlands to the sea. Property holders on that street, perhaps, recognize the desirability of presenting California to tourists along what will be a much traveled thoroughfare, a fine broad avenue which will give a good impression of Glendale and convert what would otherwise be an undesirable residence street, into one of the grandest residence boulevards in the world. This is no high flown rhetoric, but plain practical business sense. People of means and good taste can appreciate the desirability of residence streets such as proposed.

A citizen was saying that his paving cost him nearly fifty dollars a lot, but, he said, "I at once added fifty dollars to the price to each lot." In the same way if a property holder gives twenty dollars to have his property widened to a wide boulevard, his property because of being thus desirably located will be very much increased in value, being much more eagerly sought after by people of taste and discriminating judgment.

We have practical demonstration in Glendale that nothing adds so much to the good appearance of a city as paved streets, and certainly those who have observed can testify that nothing gives so much the impression of elegance, culture and refinement as broad thoroughfares. Let the people of Glendale then, before it is too late and street contracts are awarded, build for the near future and lay the foundation for a city which now contains in embryo the elements to rival or surpass famed Pasadena in wealth and beauty.

TAXPAYER.

FIRE AT MR. SHAVER'S RESIDENCE—GASOLINE RESPONSIBLE.

Last Saturday evening about 5 o'clock, while Mrs. Cecil E. Shaver was attempting to light a gasoline stove at her residence on Fifth street, an explosion occurred which resulted in a fire that burned out the inside of the kitchen and destroyed the furniture therein and did more or less damage all through the house by the smoke which filled every portion of the dwelling. The result would doubtless have been more serious had it not been for the presence of mind shown by Mrs. Shaver. Indeed, the damage would possibly have been a mere trifle if her efforts to get the stove out after it was in flames had not been balked by her little child who blocked the doorway and refused to make way, but stood his ground too steadfastly while he sent out loud appeals for the fire department. Seeing that she could not get by the infant with the blazing stove, Mrs. Shaver was forced to drop it; she then went to the other side of the house and closed all doors so that the fire was confined to the kitchen. When the fire department arrived, which it did very promptly, they could discover no flames, but found the house filled with dense smoke which prevented any one from seeing the real condition of affairs. Some chemicals were exploded but it was not necessary to turn a stream on the building. The total loss was about \$300, most of which was promptly made good by the insurance company carrying the risks. Whether Mrs. Shaver turned on too much gasoline so that it overflowed the lighting pan, or whether there was a leak, is unknown.

J. B. CATHART FOR ROAD FOREMAN.

Mr. Cathart is one of the prominent aspirants for this position, to fill which an election is to be held at Tropic, Saturday, Jan. 23d.

Mr. Cathart is a resident of Tropic precinct, just outside Glendale city limits. He has been in this neighborhood for three or four years. Has done a great deal of the grading work on our streets and is also a practical cement worker. Should be elected to the position of road foreman, he would doubtless give general satisfaction.

The Ship's Bell Clock.

In its most ordinary form the ship's bell clock is a stout, well made clock, a good timekeeper, contained in a round nickel plated case six or seven inches in diameter which is mounted on a board that can be hung on or screwed to a wall or bulkhead. The face of the clock, the dial, is of finished steel, and its pointers are of blued steel, so that with its nickel case the whole clock has a metallic, solid, serviceable look.

Attached to a projection of the board upon which the clock is placed, outside the clock and immediately below it, is the clock's gong, with the hammers—there are two of them—brought down into it on arms extending through an opening in the clock's case and striking on the gong's inner side. It is a sturdy gong two or three inches in diameter, and it sounds with a strong, clear, resolute note when the hammer strikes it. On this clock's face you can tell the time in the usual way, but the hours are struck as they are at sea on a ship's bell.—New York Sun.

Fresh.

There was no doubt about it. He was very angry when he entered the village grocery store and demanded to see the proprietor.

"You sold my wife some eggs yesterday, Mr. Peavey," he said when the grocer appeared.

"Waal, yes," said Mr. Peavey genially, "believe I did."

"And you told her that they were fresh eggs," continued the visitor.

"Waal, yes; it seems to me I did," said Mr. Peavey.

"But, see here, Peavey, you had no business to say they were fresh eggs."

"Why not? I bought 'em for fresh—from St. Wiley too."

"I don't believe it. St. Wiley's an honest man."

"Waal, St. Wiley said it, all right. He come in here with his basket full of 'em and put 'em down on the counter and traded 'em off for a box of sody biscuits."

Miss Alma Herberger gave her silver medal piano recital in the L. O. F. hall, Tuesday evening. The hall was prettily decorated in white and green. Miss Esther Smith assisted Miss Herberger, in giving two splendid readings. Miss Herberger is a pianist of individuality and of marked temperament, and her most generous program was greatly enjoyed by her friends present.

The Foresters installed on Monday evening their officers for the coming year. Mr. R. E. Wivisling, past high chief of Los Angeles, was present throughout the evening. An elaborate collation was served during the evening. The officers installed were: E. A. Fischer, chief ranger; Mrs. C. B. Fischer, vice chief; J. Batelle, past chief; June Luttrell, treasurer; Chas. Pomeroy, secretary; Geo. Luttrell, financial secretary; Naomi Pomeroy, auditor; Mrs. Ed. Fischer, sr., woodward; Mrs. H. Herberger, jr., woodward; H. Herberger, sr., beetle; and W. Weaver, jr., beetle.

A good deal of excitement was caused here, Wednesday morning, when R. O. Church went to open the bank doors and discovered that during the night the bank had been robbed. The burglars entered through the window facing Olive avenue, by the use of a burglar's jimmy. The vault was broken into and attempt was made to get into the time lock safe, but the attempt was unsuccessful. A sum of \$150 was taken in silver. Sheriff Hamel of Los Angeles was out during the day inspecting the work done by the robbers. It was thought the job was professional. On Saturday evening the Burbank Department store was entered through a rear window. From the cash drawer they took \$15 and carried off double that amount in wearable apparel. On Friday evening the home of Mrs. M. L. Carhart's was entered and a number of vases and valuable silverware was taken. It is thought that skillful and daring plunderers are systematically working the town. The constables and other officers are making every effort to run down the criminals, but so far have been unsuccessful.

CARD OF THANKS.

The undersigned desires to express his appreciation for the prompt response of the members of the fire department and the generous assistance given by them on the occasion of the fire at his residence last Saturday evening. To all of whom he gives hearty thanks. CECIL E. SHAVER.

Mrs. Volney Ritchie of Los Angeles was the honoree at a charming party at the home of her sister, Mrs. Albert Allsop, on Moore avenue Friday afternoon. Mrs. Allsop's guests included a number of Los Angeles society people.

The Ladies' Aid of the Methodist church of this place held an all-day meeting in the church parlors, Wednesday. The time was spent in sewing a quilt and other articles. At noon a luncheon, to which all the ladies had contributed, was served.

Mr. J. J. Laws and his bride, who were married recently in San Diego, where they enjoyed their honeymoon, returned the latter part of the week and are occupying their handsome new residence at the corner of Brand boulevard and Palmer avenue.

The electric stations at Tropico and Park avenues have been given a good coat of paint and are cutting a figure with their new coat. The landing places where the cars stop have also been repaired and altogether, things along the boulevard are looking prosperous.

The Tropico Social and Dramatic Club has organized with quite a large membership and are preparing to present a drama portraying western life and scenes. The officers include R. H. Punler, president; Edward Shipman, vice-president; W. J. Hibbert, secretary and treasurer.

Miss Gladys Peckham, who has been quarantined for the past week with Scarletina, is improving slowly. While the quarantine is resting on the Peckham home, Mr. Charles Peckham and Miss Frances Peckham are living at the home of Mrs. Peckham's parents, Mr. and Mrs. C. C. Chandler on Cypress street.

The ladies of the Presbyterian Aid met in the church parlors, Wednesday afternoon, and spent several hours sewing for a needy family in Tropico. At 6 o'clock in the evening the husbands and children of the ladies present journeyed to the church and the

entire company partook of a good dinner, which the ladies had provided.

We are informed that at the present time there are over 700 books which are owned and circulated by the Tropico library. During the past month over 1000 books were put into circulation by this library and the number of borrowers is constantly growing. The stock of books in this library is growing daily, every department being well equipped.

Mrs. Martha McClure, principal of the Tropico Grammar school, informs us that the newly organized Washington Park school district has taken from the Tropico school twelve of the pupils. This newly organized district takes in a section of land to the east of this place, and the enrollment numbers thirty scholars, with Miss Springfield as teacher.

Mr. Stewart Logan arrived in Tropico early this week from Chicago and will spend several weeks in this place as the guest of Mr. and Mrs. William Harvey, Jr., at their pretty little bungalow on Tropico avenue near Central. Mr. Logan comes here for his health and we can assure him that several weeks in our sunny climate will make him feel like a new man.

J. J. Laws, who has for the past several months been a resident of this place, has just completed a beautiful home on Palmer avenue near the boulevard in the Ayres Vinyard tract. The home is a two-story structure, and is modern in every respect. The owner will beautify the surrounding grounds soon. Mr. Laws is father of Mrs. J. R. Maxwell, who resides on Park avenue.

Messrs. Jay and Guy Rice of this place have opened a Pressing Club in Glendale and have located on the boulevard in one of the rooms of the Brand block. The admission to the club is \$1.50 per month and for this the club will keep a person's clothes cleaned and pressed. They also solicit transient work. The boys run one wagon which is kept busy hurrying around the valley.

Mrs. Ernest J. Morgan entertained several friends at her home on Central avenue, Monday afternoon with a pretty little dinner. The guests assembled early in the afternoon and some time was spent in social converse, which was followed by the exceedingly well-prepared dinner. Those who partook of the delicious repast were Mrs. Edward M. Lynch, Mrs. J. H. Webster, Mrs. A. W. Collins and Mrs. Ernest J. Morgan.

The third and last of a series of dances given by a committee of ladies of the Thursday Afternoon Club was held in Logan's hall, last night. The affair was well attended as were the previous two. Smale of Los Angeles furnished music for the dancing. The ladies under whose charge the affair was given were Mesdames J. H. Seaman, E. J. Morgan, J. H. Webster, Charles A. Barker, Burt Richardson and Edward M. Lynch.

A union Bible class has been organized for Tropico and Glendale, which is conducted by Dr. Smale of Los Angeles. Weekly meetings are held at G. A. R. Hall Tuesday evenings. Bible students throughout the valley are pleased that such an opportunity is offered them to continue their studies with Dr. Smale as instructor. The first studies are the Divine Library; the perfection of its inspiration and the books outlined.

Miss Leona Webster entertained a number of her little friends at her home on Park avenue, Saturday afternoon. It was the occasion of her seventh birthday and when the "future belles" of Tropico gathered the time was pleasantly spent in playing games of different kinds, Misses Eleanor Collins and Dorothy Hobbs receiving prizes. As the shades of night were stealing into the rooms, dainty refreshments were served. Those present included Misses Eleanor Collins, Dorothy Hobbs, Florence Chandler, Gennette Seaman, Mary Logan, Lila Webster and Leona Webster.

An important subdivision in Tropico recently was that of the Scheu tract on Central avenue and Cypress street. The land which was divided consisted of three acres, there being altogether fifteen lots. Along the north side of this property a wide street has been cut, which divides the subdivision from the Scheu home-stand. This street has been named Magnolia avenue, there being a row of magnolia trees along the north side of the property. Already one handsome home has been constructed in

this tract, this being the Stevenson home, which was completed recently. The lots in this tract are large and range in price from \$750 up.

The meeting of the Tropico Improvement Association which was to have been held last Wednesday evening, was postponed and the date of the next meeting of this society will be announced later by the president. Owing to some mistake it was noised around that the meeting was to have been held a week last Wednesday, a week previous to the time it should have taken place. A number of people journeyed to Logan's hall, but the hall was closed. It is hoped that at the next meeting these people who were disappointed will be present with a with a host of others. At the next meeting a number of things will come before the society that are very important to the people of this place and none can afford to be absent.

Charles Jones, who is employed by the Tropico Cash Grocery, was severely injured last Friday when the horse which he was driving ran away. Mr. Jones was driving down the San Fernando road when the horse took fright and ran along that road for several blocks until it came to Tropico avenue. Reaching the corner the animal turned the corner sharply, throwing the driver to the street, and destroying the wagon and harness. When picked up the boy was unconscious and was quickly carried to a nearby house and Dr. Tholen was summoned. The doctor worked over the boy for about half an hour before consciousness could be restored, then it was found that no bones had been broken and that he was not injured internally, having escaped with a terrible shaking up. Monday morning Mr. Jones returned to his work as usual.

POST AND CORPS INSTALL.

Collins installed the officers of the Post, while Mrs. May Weeks of Los Angeles presided as installing officer of the Corps. Miss Cora Hickman acted as officer of the day for the Post, and as installing conductor for the Corps, assisted by color bearers, Miss Della Hapgood, Mrs. Lucie Rifenberick, Mrs. Minnie Hough, and Mrs. Rosetta Light.

The installation ceremonies closed shortly after noon, when an elaborate course dinner was served to seventy or more Post and Corps members, and visitors. Mrs. Martha Chapin delivered a patriotic address, Mrs. Mary Weeks gave a humorous reading, while patriotic airs and melodies were rendered by Post and Corps. Mrs. Mae Burlingham, retiring Corps president, was presented a handsome rocker.

DEATH OF WILLIAM CAMPBELL.

Possibly very few of the readers of the Times in the Valley, while reading an account of the very sudden death of William Campbell, of Los Angeles, Monday morning, recognized in the death of the young man William Campbell Engelhardt, the foster son of Mr. and Mrs. Alfred Engelhardt, and who resided with Mr. and Mrs. Engelhardt while they occupied their ranch home in North Glendale.

William intended coming to Tropico the latter part of the week and continuing his residence with Mr. and Mrs. Engelhardt, but early Monday morning was electrocuted by coming in contact with a live wire while in the performance of his duties. He was a member of the local lodge of Good Templars.

TROPICO METHODIST ITEMS.

The revival services which are being held at the Methodist church of this place are moving forward with unabated interest and power. The weather has interfered somewhat during the last few days with the attendance, but not with the spiritual interest of the meetings. Rev. Milton Haney, who has been preaching for the sixty years, and F. C. Brauel, who has been in the evangelistical work for a number of years, are assisting the pastor. So far, the labors of these men have been crowned with a fair amount of success and if the interest continues it is expected that the meetings will continue for several weeks longer, but the length of the series entirely relies on the interest manifest.

Mrs. Menzes, daughter of Rev. and Mrs. J. H. Henry, is in the Glendale sanitarium, suffering with a temporary attack of nervous prostration due to overwork during the holiday season. Under the care of Dr. Tholen she is recuperating rapidly and expects to be home again within a few days.

Mrs. Tipton, daughter-in-law of the late Senator Tipton of Nebraska, is spending some time at the Methodist parsonage. Mrs. Tipton is a relative by marriage of Mrs. Henry.

VIOLET LUNCHEON.

Mrs. Anna Imler Smith entertained with an elaborately appointed luncheon at her home Saturday afternoon, complimentary to Mrs. S. A. Kendall and Miss Grace Kendall of Myersville, Penn., and Mrs. Will W. Imler of Gilman, Iowa. The rooms throughout "Quinta Ana" were brightened with decorations of smilax, violets and roses.

Miss Grace Kendall, who is a graduate of an eastern conservatory of music, rendered several instrumental solos.

Mrs. O. R. Church of Burbank gave piano solos while Mrs. Dan Campbell of "Ard Eevin" delighted the guests with a number of Scotch melodies. Places were marked by corsage knots of violets and cards of deftly executed water colors of violets.

TROPICO BASE BALL CLUB.

The Tropico Base Ball Club will cross bats with the Ivanhoe team on the Tropico diamond next Sunday afternoon. These teams were to have played last Sunday, but the weather was so threatening and the grounds were wet, so that it was impossible to play. The Ivanhoe team is considered very strong and it is thought that the home team will have its hands full tomorrow. The game will be called at 2:30 on the diamond on San Fernando road, near the Tropico Mercantile company.

DRAMATIC CLUB.

The Tropico Social and Dramatic Club was entertained by the president, R. H. Punter, and Mrs. Punter, at their home of Cypress street, Tuesday evening. A feature of the evening's entertainment was the admission of a number of ladies as members of the club, with most amusing ceremonies. Dainty refreshments were served to thirty-five guests.

ATTENTION VOTERS.

Election for road foreman, Tropico road district, (comprising Tropico and Ivanhoe precincts only) will be held Saturday, Jan. 23d, 1909. From 1 to 8 p. m., at Office adjoining pool room, Tropico. All registered voters in above precincts are entitled to vote.

By Order of Committee, Appointed by Super. R. W. Pridham.

A GEM OF A COOK BOOK.

This establishment has recently turned out for the ladies of one of our churches, a gem of a cook book. It is the real thing and after reading proof of it for two or three hours, we believe we are entitled to speak as one having knowledge.

It tells how to cook everything from pickled elephants to canary birds' tongues, and we advise young housekeepers in particular who want to serve their lord and master with dishes such as his mother used to make, to buy it and try it. One of the best features of the book is the signing of the author's name to every recipe. This clearly fixes the responsibility and in case of failure the expiring housewife can send "at once" for the author to come over and demonstrate. We have two or three copies left in this office and will part with the same for the beggarly consideration of twenty-five cents.

THE RAIN.

The rain which has been falling gently most of the week seems to be over as we go to press. The precipitation has been so gentle that it has not raised the streams and every drop has gone into the grateful earth. The rainfall for the season is about six inches which is about twice what we had up to this date last year and comes pretty near to guaranteeing a prosperous season. The temperature continues mild which is also a favorable circumstance.
